WORK EXPERIENCE

Software Developer

Centre Henri Pousseur / Freelance

📅 2022 – now

📍 Ghent, Liège, Brussels

- **Design, develop, and modify 25+ softwares and web applications in multiple languages (Java, C++, JS)**
- Build and integrate complex systems for data analysis, signal processing (sound, video, sensors), media synchronization, custom tools and interfaces.
- **Deliver robust and user-friendly solutions, meeting unique project requirements for 15+ clients.**
- Analyze user requirements to provide technical guidance, refine objectives and propose customized solutions.
- Create and maintain documentation for each project, emphasizing maintainability and adherence to best practices.
- Conduct rigorous testing protocols to ensure stability and avoid failures during live use.

Teacher

GO! Academie Schaerbeek / Academie Lokeren

📅 2021 – now

📍 Schaerbeek, Lokeren

- **Teach creative coding**, guiding students in developing interactive digital projects using code.
- Provide technical support during exams and regarding certain ICT aspects (cloud, audio, video), rental, reparation.

Polyvalent Technician

De Centrale, LOD, CitySounds, Soundfield, enz.

📅 2018 – 2022

📍 Ghent Region

- Operate as a sound and light technician, managing equipment setup, operation, and troubleshooting for live events and performances.
- Develop custom software tools to support sound and lighting setups, improving efficiency and functionality during events.
